

### Literacy

In Literacy this term we are going to begin by looking at stories of conflict and resolution, children will familiarise

themselves with *The Day the Crayons Quit* by Drew Daywalt, before having opportunities to write different text types. As part of a whole school literacy topic, the children will read the *BFG*, which will provide them with a variety of writing opportunities and drama skills. Children will develop their inference and deduction skills through Book Talk which will look at different genres weekly.

## Year 3 – India

Miss Horrocks &  
Mrs Partidge-Underwood

### Maths

In Maths children will continue learning multiplication and division formal methods including the grid method and bus top method, before apply their skills to problem solving. Children will begin to look at using Roman Numerals upto 20. Once this is secure children will move onto fractions, recognising and writing fractions of sets of objects and adding fractions with the same denominators. Children will continue to work on their arithmetic skills and be tested on these weekly.

### Science

In Science, we will be look at Animals including Humans, teaching the importance of the right type and amount of nutrition as well as the function of skeletons and muscles.

In Geography, we will be using atlases to locate India, key landmarks and human and physical features of India, as well as climate and environment. In history, children we learn about different historical figures including Gandhi.

In History, we will be looking at the Stone Age to Iron Age, developing their knowledge of these periods in History

### Music

Pupils will learn more songs, singing in rounds to enhance their listening skills and concentration. They will also be introduced to the recorder and have a chance to begin learning to play the instrument.

### PE

In PE, children will be developing their skills in Tennis focusing on serving and keeping a rally, with the tennis coach Simon. With Mr Perry children will develop their fine motor skills and aiming in archery. They will learn how to hold a bow and arrow correctly.

### ICT

Children will continue to learn about e-safety and putting things online. Children will begin to understand algorithms and recognise that some algorithms rely upon a strict order to work. Children will also use ICT to support other areas of the curriculum.

### Art and DT

Children will look at different rangoli patterns and learning about Henna patterns, they will then design and create their own. In DT children will taste different foods from India and prepare different recipes from India. They will also create their own Indian sweets to test, evaluate and modify their recipes.

### RE and PSHE

In RE, children will look at different religions observed in India, with a specific focus on Sikhism. In PSHE, children will focus on health and wellbeing, looking at growing and changing, keeping safe as well as relationships and valuing difference.

### Things to remember:

PE – children will have PE with Mr Perry on a Wednesday afternoon and Tennis on a Thursday afternoon.

Spellings – children will get given weekly spellings on a Friday, they will be tested on these spellings the following Friday.

### How can you support your child?

You can support your child at home by helping them to learn their spellings and completing their homework. Reading with your child regularly will support their fluency and asking them questions about the book will build comprehension skills.

You can also practise mental recall of times tables and division facts as children will have weekly timestable quizzes.
